📍 Espoo, Finland

CORE SKILLS

- **LANGUAGES:** Python, Typescript, Javascript, C++.
- **FRAMEWORKS:** React, LangChain, Mastra, Hermes, Next, Nest.
- **DATABASES:** PGVector, ChromaDB, Redis, Supabase, Cosmos DB.
- **Others:** Docker, Azure, CI/CD, Kubernetes, MCP.

LANGUAGES

- English: Fluent
- Vietnamese: Native
- Finnish: Elementary

ACCOMPLISHMENTS

Azure Developer Associate (AZ-204)

Full Stack Open – CI/CD

Full Stack Open – TypeScript

Full Stack Open – React Native

Full Stack Open – GraphQL

Full Stack Open – MERN Stack

AI For Everyone

Full Stack Integrify

HACKATHONS

- Nokia hack 2023 – Vaasa, Finland
- Junction 2024 – Helsinki, Finland
- Group One Cabin Hackathon 2026

BINH NGUYEN

SOFTWARE ENGINEER

Committed to creating streamlined, cost-friendly, simple, and automated systems with dedication. Let's make an impact.

WORK EXPERIENCES

AI BACKEND DEVELOPER

DECEMBER 2025 – JULY 2026

Zoner Oy – Group One | Vantaa, Finland

Technologies Combined: Langchain, Mastra, NestJS, Rust, C++, Langfuse, AI inference, Agent Harness, Web MCP, Deep Learning, Wordpress.

- Handled regression evaluation. Helped AI Harness work more stable than 90% by skill-based elaboration.
- Designing Thread conversations, harness memory, configured the engine database.
- Optimized the Sub-agent orchestration by 50% token efficiency and controlled input cached token.

AI/DATA ENGINEER

FEBRUARY 2025 – SEPTEMBER 2025

Rubberduck AI Oy | Helsinki, Finland

Technologies Combined: MongoDB, Motherduck, Python, MCP, Azure Data Factory, Azure DevOps, Iceberg, NextJS, ASP .NET, Java, Spark, LangChain.

- Developed a data pipeline on the Motherduck cloud platform, improving query performance by 30% in parallelization situation.
- Designed the supervisor-subagent architecture for the company's AI agent. Built the core product from Front-end with NextJS to Backend in FastifyJS and LangChain.

SOFTWARE ENGINEER

JUNE 2024 – FEBRUARY 2025

Lakihelppi | Helsinki, Finland

Technologies Combined: LangChain, LangGraph, NextJS, NestJS, Webhooks, n8n, AWS, GCP, LLM, AI AGENTS.

- Completed AI integrated service for checking document based on legal context.
- Built LLM Service Endpoints for the legal platform system, make the LLM connection more way robust.
- Built UI for paralegal feature with Tiptap editor integration.

EDUCATION

BACHELOR OF INFORMATION TECHNOLOGY

Vaasa University of Applied Sciences (VAMK) | Finland | Graduated in May 2024

FULLSTACK DEVELOPMENT BOOSTCAMP

Integrify Academy | Finland | Graduated in June 2024
